Farmers Look Upon 1950 As One Of Vast Opportunities Lost

OTTAWA. — For Canada's weather-bitten farmers the year 1950 will probably go down as one of their worst opportunities lost, opportunities that might have given much added millions to meet high production and living costs. For 1950 was the year of the big frost, that destroyed millions of bushels of produce without delayed harvesting and cut the quality of much of what was left for storage, transportation and export.

It was the year, too, when the weather with the threat of snow gave scant opening for developing crops and when the world market was still reeling from the effects of the Korean war.

But, at the time, Canada's weather-bitten farmers were not aware of the fact that the weather was not the only thing that was against them. They were also facing a world market that was not as strong as it had been in the previous year.

Climate-borne industries such as paper and oil, faced much better. For example, a top dollar market for Canada's increased production in the first six months to \$1,000,000,000 from \$1,000,000,000 a year ago.

Oil made a more spectacular climb. In the first six months, output from Canadian wells rose to \$1,000,000,000, a year before it was \$1,000,000,000.

The following is a story of Miss Mary Shakerley, a native of Calgary who is featured in the new television miniseries "Between You and Me" in The Toronto Telegram:

Sports fans of a decade ago will recall a young Canadian girl by the name of Miss Shakerley who won renown for her husband and her fine country in the British Empire Games of 1930 in Australia. She represented Canada as a fairly liver.

Since then the life changed her name and her vocation. Miss Shakerley is now Shaker. Mary Ambrose, working in a paper colony in the Solomon Islands

WINNEPESIA.—A change in spiritual outlook in the last 30 years was the reason why fewer people offer themselves for baptism in the city of St. Mary. Rev. A. R. Mohand, of Westminster United church said it was the great spurge at the annual winter night of the Anglican St. Basil's church. "While the fallow might look black, he said it, could take courage from the fact that babies today were the best ever seen. Children were healthy and the parents were good men and women that they were capable of much."

With the horrors of German prison camps still fresh in their minds, people were beginning to see what happened when they shed the yoke of God.

Many persons, public figures among them, believe the federal crisis expires at the end of the federal fiscal year March 31. However, when the federal government extended real control last year it did so for a 18-month period into April 30 this year.

That was done because most Canadian loans expire at that date, with the next day—May 1—the country's traditional moving day.

For the first time in history, Indians of the Nainian band have elected a chief without passing the honor down from father to son. The new chief, elected at an assembly recently, is Edison White, 28, a logger and beherman and grandson of Chief Paul White who died three months ago. His father, George White, 60, is in for the honor under tribal custom, stood aside for the younger man.

STADIUM — Higher living standards in Canada, as a result of population, have improvements in pig-breeding and the production of pig products. The highest standards were among the products of Frank M. Peter, president of the American Petroleum Institute.

ATTORNEY — The Attorney General announced that Mr. Peter, president of Canada, was the most prominent man in the world for those making their fortune.

Canadian business men, and Mr. Mulroney's government, are introducing a bill in January to restrict their activities in foreign countries. He said their position on the stability of a majority of the Canadian government is such that they have no reason to invest here. He said he is not in a state of mind to be so negative, but that he should be discouraged there."

He predicted that all reserves in Canada would eventually prove much larger than most anticipated. He praised the oil policy of the Alberta

OTTAWA An increase of nearly 1900 in Ontario's total population in a three-year period was noted by R. H. Gibson, commissioner of statistics, in his annual report for the fiscal year ended March 31, 1980.

The report, tabled recently in the Ontario legislature, shows that the number of residents had gone up from 2,132 at March 31, 1947 to 4,700 at March 31 last. It did not ascribe any reason for the increase, but noted that it was most apparent in Quebec pro-

vince; Canadians—Tom Johnson, Verly Kaiser, Paul Mammie, Gerry MacNeil and Dad MacPheerson; Rangers—Bryce and Herb Sinclair, and Toronto—Barney Lewicki and Al Rollins.

Three of those names, Burchell, McNeil and Rollins are goalkeepers; Wolfe, Quackenbush, Coffin, Pronovost, Hagler, Johnson, MacPheerson and Verly are defencemen; while the remaining four are forwards, with Verly being for rookie replacement; while Ferguson, Blanton, Kaiser, Mammie, Sinclair and Lewicki are all forwards.

The report said further progress has been made in implementing the recommendations of the Royal Commission on Penitentiaries which several years ago urged that greater stress be placed on information of inmates.

Garry Goelie Misses A Penalty
Garry McNeil, rookie goalkeeper of the Montreal Canadiens, is the only regular netminder in the N.H.L. who hasn't incurred at least one penalty this season. Every other goalkeeper has had at least one minor penalty with Charlie Rayner of Rangers having had no less than three.

Pontiac Streaks Ahead TO A SPECTACULAR Sales Record!

Record sales record in being broken by the Silver Streak Pontiac!

More Canadians have bought Pontiacs during the past year than ever before! And, right here in our own district, Pontiac enjoyed all the respective honors of competitive manufacturers in 1950!

This is conclusive evidence of the increasing satisfaction, reputation and popularity that have combined to make Pontiac the public's overwhelming choice.

There are many reasons, of course, for Pontiac's amazing gains in public preference! For Pontiac offers everything anyone can want in a smart car. There are series and models to satisfy every purse and purpose... the economical six-cylinder motor as well as the famous eight... the smooth synchro-mesh transmission or the latest of fully-automatic drives... and all these fine features in a car that is a triumph of duty-loyal luxury, built with all of Pontiac's traditional integrity of engineering.

Pontiac's record-breaking popularity is new proof that Canadian motorists recognize the solid, honest values that only Pontiac offers and proud, one, of the grandeur, pride and loyalty that is so characteristic of Pontiac's own family of owners.

For 1951, Pontiac Offers You Conventional Automatic Transmission!

One Pontiac... bringing the wonderful ease and convenience of a proved, completely automatic transmission in the low-price field... on check pedal... no gear shift! Optional at same cost as standard 35.00.

Roads For Unity

The boundaries of habitable land in Alberta are being extended every year by the province's road-building program. As civilization pushes the frontiers back, more areas are accessible and usable, thereby contributing to a more balanced provincial economy. Following the initial road building program comes the vast improvement in maintenance and repair work on the network of existing highways throughout the province and beyond.

ROADS. During 1950, 170,000 miles of roads for all the ultimate objectives of the Department of Public Works for good roads are connecting links to unity.

GRANTS. The Department of Public Works also administers grants to municipal districts for the maintenance and improvement of roads and without road funds. In 1950, these grants amounted to \$2,136,000.

BRIDGES, AND HIGHWAYS. Corporate maintenance and construction of the highway system in Alberta is the province's largest and most important project.

The 1950-51 road bridge construction program includes bridges over the Bow River at Calgary, the Red Deer River at Red Deer, and the Athabasca River at Athabasca. These bridges will improve the highway system and provide a more balanced provincial economy.

Hints For The Playoffs

Now that the playoffs are upon us, it is time to look for some of the key players who will be making the difference between a win and a loss. In the playoffs, every player is expected to perform at a high level, and the team that is able to maintain its composure and focus under pressure will be the one that comes out on top.

One of the most important factors in a playoff game is the ability of the players to execute their plays under pressure. This is where the experience of the players becomes a major factor. The players who have been through the playoffs before will know what to expect and will be able to handle the pressure of the game.

Another key factor is the ability of the players to work together as a team. In the playoffs, every player is expected to contribute, and the team that is able to work together and execute their plays as a unit will be the one that comes out on top.

STREET SHOWS
by JANE BARR

FLOWER FOLLOWS THE GARDEN
The flower show is a tradition that has been going on for as long as there have been gardens. In the past, the flower show was a place where gardeners could show off their best plants and flowers to their neighbors and friends. Today, the flower show is a place where gardeners can learn about the latest in garden design and plant care. The flower show is also a place where gardeners can meet and talk to other gardeners who share their passion for gardening.

Many people who attend the flower show are looking for inspiration for their own gardens. They want to see the latest in garden design and plant care. They want to see the best of what gardeners have to offer. The flower show is a place where gardeners can find all of these things and more.

The flower show is also a place where gardeners can learn about the latest in garden design and plant care. They can talk to the experts and get their questions answered. They can see the latest in garden design and plant care and get ideas for their own gardens. The flower show is a place where gardeners can find all of these things and more.

GARDEN NOTES

See Vegetable Seeds
So Harvest May Be
Spread Over Many
Weeks

Several times this year, the weather has been so good that it has been possible to get a succession of vegetable crops. This is a good thing, for it means that the garden can be kept busy all year long. The first crop of vegetables was planted in the spring, and the second crop was planted in the summer. The third crop is now being planted, and the fourth crop will be planted in the fall. This means that the garden will be producing vegetables for many months of the year.

Two Day Blizzard Tapering-off Today

Heavy and high winds which began on Tuesday have brought a storm of blizzards across the province. The temperature is said to be the lowest for this time of year ever recorded and have dropped to one degree below zero.

Winds have subsided, the snow has stopped and the blizzard is far more temperate.

Forecasters, however, have indicated by the storm and blizzard winds have become fairly settled in nature but the additional loss of moisture will be quite serious.

SHALL SOON be back — her cheque cashed, her deposit made, her bank book written up.

Mrs. Johnson is one of the 3,200,000 new bank accounts opened during the past ten years. Like most people nowadays, she relies on her bank to safeguard her money; she expects her bank book to show how she stands; she finds bank cheques convenient to pay larger bills.

The cheques banks appreciate — and depend on — are the confidence of depositors like Mrs. Johnson. For the money which Canadians keep in 8,000,000 bank accounts provides the basis for bank lending. Safeguarding these funds is the banker's first concern.

WHERE DOES THE MONEY GO?

At times most of us have looked at purses, wallets or bank books, and wondered "Where does the money go?" You may be wondering, too, where does the money go when we receive for products, but not for labor and other products we sell. Well, how much of the money we received was this way?

CRIME OR and the other two materials we bought took half of each dollar.

OVERHEAD AND ADMINISTRATIVE expenses took more than 25 cents. This was the cost of marketing for and producing each unit, and all manufacturing and marketing the thousands of products we supply for thousands of men. Throughout the year high quality products were made available when and where we needed them.

TRANSPORTATION of products from our refineries to marketing points took the same big bite of the dollar. Products moved over wide areas to serve every community in Canada.

TAXES to provincial and federal governments took 7 cents. And this did not include gasoline tax which—depending on where you live—ranged from 22 to 33 cents an every dollar you spent for standard grade gasoline.

TO REPLACE worn-out equipment and to make sure that we can supply your needs in the future took 5.39 cents.

RESEARCH paid to chemists for use of plants and equipment amounted to 3.45 cents.

OIL MAKES A COUNTRY STRONG

THE ROUGHNECKS ARE MOVING ON!

In the language of the oil fields, "roughnecks" are the men of the drilling crews who probe deep in the earth for oil. It is they who dig up oil and bring it to the surface, where it can be refined and used in every way.

But roughnecks live it hard when the going is toughest and most exciting, when they move on to search for oil where it has not yet been found. In Alberta the odds are against them, only one out of ten will be 30 or 40 miles to be successful.

Working against these odds, roughnecks' drills have tapped more than a billion barrels of new oil in Alberta since 1947, bringing new prosperity and new security to all Canada. In fact, Canadian men produce out as every other nation they see, but we still must depend on foreign countries for the other two. To be self-sufficient we must have three times our present reserves.

The roughnecks keep moving on in the searching search for oil. As they succeed they build and strengthen the entire nation.

British Hospital Ship Serves with U.N. in Korea

Britain's contribution to the United Nations effort in Korea—the fully armed hospital ship "Fairweather," formerly a passenger liner on the North Atlantic run. The ship, now in Korean waters, is used for U.N. wounded personnel, has space for 200 patients and is staffed by medical and administrative volunteers, including one Canadian. Here, Commander Neil Hammerick, commander of the British ship (left), discusses his work with Admiral John of the Korean Navy.

Turkish Troops with U.N. in Korea

The tough Turkish soldiers who form part of the 11,000 U.N. forces in Korea have won admiration for fighting men all along the front. Experts in hand-to-hand combat, they have time and again proved their mettle. Above is the Regimental Flag of the 11th Regiment of the 10th Turkish Infantry Division.

THE WEEKLY SHIRVEL-FULL

So you're married life is very unhappy. What's the trouble, December married to May? Because on it's Labor Day married to the Day of Heat.

During, began the man who hoped to be married shortly would you like a dish washing machine for a wedding gift?

Of course not, replied the bride to be, do you think we're going to sit home and eat all the time.

Portrait at Niagara—Are we near the fall yet?

Guide—Yes, sir. As soon as the action stop talking you will hear the roar.

So you and Charlie are married. I thought all the time it was just going to be a flirtation.

So did Charlie.

Customs officer—Lady, said this bag overstated clothes, but it's full of beauty. Woman—Certainly—my husband's nightgown.

He—I know a man who has been married 47 years and spends every evening at home.

She—That's what I call love. The doctor said it's paralytic.

The great big beautiful one drove up in the curb where the cute little working girl was waiting for the bus. A gentleman stuck his neck out and said, Hello, I'm driving.

How wonderful said the girl, bring me back an orange.

I wonder why thousands of menys more auto wrecks than railings, airplanes?

That's easy. Did you ever hear of the fireman hugging the engineer?

THE WEEKLY SHOVEL-FULL

Mary a woman has a large mind, she can give her husband a piece of it every day for forty years and have plenty left.

The reason they call callitrons "aho" is because they make a terrible showing in the wind.

Sleep, my little one, sleep, my pretty one, the baby-sitter will come to their sense.

Reformer—Well, my good man, what must you do your money, to bring you to this pitiable condition?

Worry like sheep—Part went for liquor part for gambling and so-d part for more. The rest, I guess, I just spent foolishly.

Mary can you tell me why I'm like a hen?

W. dea? Way in it? Because I seldom find anything where I laid it yesterday.

Bill—I've got a swell position on the team. I'm chief of the services.

Mary—What do you do?

Bill—I blow up all the basketballs.

Jo-Joe—What is your name, your occupation and what are you charged with?

Prisoner—My name is Maria, I am an electrician and I am charged with history.

Judge—Officer put him in a dry cell.

The judge asked a man charged with drunkenness. How long up have you been?

No sir, replied the defendant. You must wait till I remember your face.

Yes, your honor. That is I've been before you once before. You married me.

U.N. Team Rides Lion to Make Health Survey

The "Fath Rai Mar," a 24-ton schooner, served as headquarters of a three-man expedition sent by the World Health Organization (WHO), one of the Specialized Agencies of the United Nations, to make a survey of malaria in the Maldives Islands. On their return trip the raft was laden a hyacinth and the WHO team barely escaped alive. In the upper right: a map of the Maldives Archipelago.

Preparation Of Frozen Foods For Storage And Use

Many Fruits And Vegetables Can Be Preserved In This Way

The preparation of frozen foods for storage and use is a process that has become increasingly important in recent years. This is because of the increasing demand for convenience foods and the need to preserve the nutritional value of the food. The process involves the selection of the right type of food, the use of the right type of packaging, and the use of the right type of freezing method.

One of the most important factors in the preparation of frozen foods is the selection of the right type of food. This is because different types of food have different freezing requirements. For example, fruits and vegetables should be frozen at a lower temperature than meats and dairy products.

Another important factor is the use of the right type of packaging. This is because the packaging must be able to protect the food from air and moisture, which can cause spoilage. The packaging must also be able to withstand the freezing process without becoming damaged.

The final factor is the use of the right type of freezing method. This is because different types of food have different freezing requirements. For example, fruits and vegetables should be frozen at a lower temperature than meats and dairy products.

By following these guidelines, you can ensure that your frozen foods are prepared correctly and will remain fresh and nutritious for a long time.

**TO CHECK ACCIDENTS**
Double Check YOUR CAR

Defective brakes, faulty tires and badly-
aimed headlights contribute to the ever
mounting number of street and highway ac-
cidents. Now that we're on into Summer, that
early Spring check-up is miles behind your
car. Is it still mechanically safe? Make
sure. . . . double check steering, brakes, head-
lights and tires--again now!

Historic Bridge In Northern Manitoba Is To Be Dismantled

Not Been Abandoned And United For 14 Years

By V. A. MACKIE

OTTAWA—An historic bridge of steel in northern Manitoba which has stood unchanged for 34 years, spanning the Fort Nelson on the shores of Hudson Bay, may soon disassemble. The railway bridge without a railway has finally been told by the federal government for a fraction of its original cost. The bridge, built by the Canadian Pacific, is located about 100 miles from Toronto, which happens to be at this summer for scrap metal.

The bridge, two-thirds of a mile and artificial island were placed long, remains the maintained with an \$800,000.

The Government has made a decision to remove the bridge. But wouldn't be better after study its location decided it would cost too much to build and get it to land. The government has sold for a few thousand dollars. A few, government officials refuse to

Today it is estimated it would cost about \$1,000,000 to build such a bridge.

The steel structure has an interesting history. When the Hudson Bay railway was first under construction in 1907, the bridge was built to make it possible to cross by switching the rails at the bridge.

Further south of the bay, the construction difficulties were encountered. The bridge was built on a shallow water channel but encountered an artificial island built from sand.

planner, British transportation registrar, for an opinion on Port Nelson. He found that there had been mistakes and recommended the tentative plans revert to Churchill with the same-minimum harbor and water. All work was abandoned at Nelson. Rafts were ripped up and the half-built harbor walls and bridge left to rot, incomplete.

Total cost of the port installations at Port Nelson, including the bridge and other facilities, was \$1.5 million.

STANDARD BRIDGE

By M. Hovvman-Cox
Director of U.S. Coast Guard

When the U.S. Coast Guard was asked to build a bridge for the U.S. Navy at Port Nelson, the Navy's first mission in Antarctica, it was a challenge. The bridge was to be built in a remote area, and the Navy's budget was limited. The Coast Guard's solution was to build a standard bridge, which was a simple, functional design that could be built quickly and cheaply. The bridge was built in 1955, and it has been in service ever since. It is a testament to the Coast Guard's ability to provide support to the Navy in the most difficult of circumstances.

The survey goes for study in U.S. Economic and Social Commission in Geneva. Figures are taken from 1940 statistics.

North America, with less than 10 per cent of the world's population, accounts for nearly 43 per cent of the world's income. Asia, with more than half the world's population, has only one-eighth of the total.

THE WEEKLY SHOVEL-FULL

Ma—What would your parents
say if I should propose to you?
She (shamelessly)—It's about time.

It takes two to make a quarrel,
but a dozen or more generally take
a walk at it before it is patched
up.

Teacher: When was baseball first
mentioned in the bible?
Johnny: When Robinson walked
to the wall with the pitcher.

The G I asking for a loan didn't
asked as his companion "pigeon-
hole" in a gallery. Further question-
ing brought out the fact that he
took care of the stained pots.

Teacher—Now, Mary, tell the
class the difference between a lie
and a punter.
Little Mary—That's easy. Mich
Brown—A lion's mouth, and punter
or what I got on.

He neither has well you treat
the world you will never get out of
it alive.

Customer—Hang it! You've nipped
and a piece off my ear.
Barber: Sorry, sir; it's only a
small piece; not enough to affect
the hearing, sir.

I don't know what's the matter
with that little man over there. He
was an offensive a few minutes ago
and now he won't even look at me.
The other lady: Perhaps he now
he comes in. He is my husband.

Ed—You say you were arrested
because you paid your bill with a
smile.

Bill—Yes. They insisted on
money!

The generation of a good idea is hard work. It involves nothing, only and depending on many bad ones.

There are no two more obvious than you. You either like it or you don't. And to be successful, a good idea must be had. It must make the business grow, it must make the bank balance grow, and it must be good for the rest of the world. No doubt, he promptly repeats it to us.

There's nothing in the world so difficult to overcome. Have you ever tried jumping through a hoop that is the size of a pin?

A DEODORANT

There is a lot of right in the new advertising of deodorants. The first thing I noticed when I stepped out of the shower this morning was a pleasant surprise. The deodorant I used was not only effective, but it also left a fresh, clean scent that lingered throughout the day. It was a pleasant change from the usual overpowering scents. I noticed that the packaging was also more appealing, with a clean and modern design. The overall experience was a refreshing one, and I was glad to find a deodorant that truly worked and smelled good.

Damp Grain—Is Seed Worth
Termination tests already com-
pleted by the U.S. National Experi-
ment Station have shown that Ex-
tra-type no longer than 7,000 farmers
seed-grain samples emphasize the
following points with respect to the
value of seed grain:
Delayed Termination. An unusually
large increase of damp grain has
been observed in the fall and winter
period. Damp grain pre-
sents a real germination problem
because of the fact that both mold
and insects are more likely to cause
delayed germination (stored seed
dormancy), seed-grain testing un-
reliable, and the fact that the
seed will not germinate satisfactorily
until warm spring weather occurs.
However, if a farmer's grain is
damp, it is not in the form of a
100% moisture, a germination loss
made the water will give a true
value for seed grain. The grain
on the spring, and hence its true
value for seedling purposes.

SERVICE BOARD NOTES

(W. E. Snyder, Field Supervisor) During the week we held meetings at Rugby, Eagle Hill, Mayton and Westerdale. With the exception of Rugby where the attendance was rather small, the attendance and interest exceeded our expectations. We usually find that the progressive type of farmer who wants to increase his knowledge and keep up to date on the latest developments in the field of agriculture come to this type of meeting. The Department of Agriculture sent up the office of District Agricultural Extension, Beaver, Edmonton and Field Supervisor to serve every phase of farmers needs. An ever increasing number of people are becoming aware of the advantages of these services and are availing themselves to them. As you can see our farm lands become older and newer depleted it will become increasingly imperative that we put into practice the most efficient and most modern and most scientific methods. As world population increases more food will be required and for us to be able to produce that from our resources, it will require careful and systematic management of our soil.

The Madden meeting will be held on Monday, March 10th.

DOG LICENSES

Dog owners are reminded that license tags for their dogs are now due and must be obtained at the office of the Secretary-Treasurer before the end of March. G. O'Donnell, Sec-Treas.

FISH & GAME BANQUET PROVES ENJOYABLE

Approximately 150 members and their wives attended the Fish and Game banquet in the hall on Wednesday evening. Visitors from Olds, Edinburg, Craighill and Calgary were present.

Prizes were also presented for the largest fish caught last year, winners for trout being Mrs. E. Francis and Mrs. N. Horning in the ladies section and Phil Frost and Stuart Hall for the men.

Winner for the biggest pie was won by Frank Summerville. Pat Morrison won the prize for bringing in the largest duck last fall.

A number of pictures on wild life and game management completed the program.

1st & 2nd TEAMS IN BASEBALL LEAGUE

At least six teams will again be competing in the Carstairs Amateur Baseball League this summer and it is quite possible the number will be raised to eight inside of two weeks.

All last year's teams, with the exception of the Buffaloes who relinquished their franchise in favor of a team from the No 2 R.C.A.P. base, will be represented.

Partly 8th, Memory, Carstairs, Drumheller and Standard. Twin Cities is seeking a franchise in the circuit and there is a possibility that either Carstairs or Red Deer will enter a team to join the eight team circuit.

The baseball club have secured the picture of the 1951 World Series and will show them along with other films in Carstairs hall on Tuesday, March 25th.

Admission will be 50c and 25c and the proceeds will be used for financing this year's team. Everyone is invited.

If you think the words "right" and "wrong" mean the same thing, you are the different fellow that lives in 1952

A telephone pole never stands on a automobile engine in its life.

I know a girl who got married twenty times and had a quarter with her husband each time. It means in her diary "wrong" all that a day, means more like a long day here.

How often do you ever let your wife drive her car? Well, I don't let her drive for herself.

Shirley, are you ready? You boy friends are at the door.

You mother! I hear it's raining. But it's raining for much longer.

The two men hadn't met for 15 years.

And it was just as pretty as she used to be. "I said the first time I saw you, I was in love with you, but it was just a first love, but it was for much longer."

Isn't that what you call a man who drives a car? Well, I don't let her drive for herself.

DETROIT CANCER IN EARLY STAGES—Research conducted by John J. Hunt, M.D., of the University of Michigan, demonstrates the value of the new device for detecting cancer in its early stages. Hunt found that the device could detect cancer in its early stages in 100 percent of the cases. The portable machine requires no special wiring to detect cancer tissue. It is a part of the patient's body and is used in the patient's home.

THE WEEKLY SHOVEL-FULL

What's the big idea, wearing my raincoat?
It's raining. You wouldn't want your suit to get wet, would you?

What will the swimmer do for clothes?
Oh, he has his trunks.

Bashful Young Lady—Joe don't tell anybody you saw me home.
Bashful Young Man—Don't fear I'm as much ashamed of it as you are!

The salesman whose pants were not in fashion was shown in making his facts in the wrong place.

Over sleeping navy makes your dreams come true

Is it true, the lady asked the explorer, that the beasts of the jungle won't harm you if you carry torch?

She—Have you ever had a lesson by correspondence?

Bride—You must not expect me to give up my girlhood ways all at once.

Groom—Certainly not, my dear. Go on taking an allowance from father as if nothing had happened.

Little Boy—to father who had just returned from the hospital after operation for appendicitis. Well, where's the baby?

I hear your rich uncle died. He left you something, I suppose?
Oh, yes—penicillin!

Prisoner—But, your honor, the

Judge—Didn't you fire that gun?
Prisoner—Yes, but I told him I would shoot, and he didn't duck.

I'm sure I don't know where little Jimmie gets all his bad habits from. I'm sure it's not from me. No, you're right, dear. You haven't lost any of yours.

How long did you know your wife before you were married?
I didn't know her at all I only thought I did.

Edna married a musician and she has been harping at him ever since.

PARK CAREFULLY NEAR FIRES

We have been asked to draw the attention of the public to the difficulty caused by cars parked at or near a fire to the detriment of the fire brigade. At the Bon Pump truck can not work past the car along the road to make it almost impossible to get it with the chemical curts. This could mean delay with the pump and be a very serious trouble. Everyone is anxious to be at home at a time like this, but a little care and thought in the future may save serious loss of property by fire, or damaged interests in the cars which are parked too near the fire. It might be better to walk a few feet farther.

Pre-Season Conditioning Hints

The first and foremost rule in conditioning is to start slow and build up gradually. This is especially true for those who have been inactive for some time. A gradual increase in activity will help the body adjust to the new demands and prevent injury.

A Medical Check Up

Before starting any conditioning program, it is wise to have a medical check-up. This will help to identify any potential health problems and ensure that the program is safe for the individual. A doctor can also provide advice on the best type of exercise for the individual's age and health.

A Secondary Game

It is important to have a secondary game or activity that can be done if the primary activity is not possible. This could be a low-impact exercise like swimming or cycling. Having a backup plan ensures that the conditioning program can continue even if the primary activity is not an option.

Keep up with the latest

It is important to keep up with the latest news and information in the world of sports and fitness. This can be done by reading sports magazines, watching news programs, or following sports websites. Staying informed helps to keep the conditioning program relevant and up-to-date.

The stomach and hips

The stomach and hips are two of the most important areas of the body for conditioning. The stomach is the source of energy, and the hips are the base of the body. Strengthening these areas will help to improve overall performance and reduce the risk of injury.

Kitchen Meditations

By JANE DALE

Did anyone ever tell you that you were a meditator? Well, you are. Every time you sit down to eat, you are meditating. The kitchen is a great place for meditation because it is a place where you can focus on the present moment and the food you are eating.

When you sit down to eat, take a moment to pause and breathe. Notice the colors and textures of the food. Smell the aromas. Taste the flavors. This simple practice can help to reduce stress and improve digestion.

Remember, a meditation is not just a time when you sit and think about nothing. It is a time when you are fully present and aware of everything around you. The kitchen is a perfect place for this kind of meditation.

Macleod, Alta., Changing To Its Original Name Of Fort Macleod

MACLEOD, Alta.—Citizens of this thriving northern Alberta town will turn back the pages of history next July. They will celebrate the restoration of the town's original name of Fort Macleod. The celebration will take place on the anniversary of the town's founding in 1879.

With the coming of the month, the town's name will be changed from Macleod to Fort Macleod. This change is part of a larger effort to restore the town's original name and its historical significance. The town's name was changed in 1911, but the original name was never officially recognized.

Fort Macleod, a town of about 1,000 people, is located in the northern part of Alberta. It is one of the oldest towns in the province and has a rich history. The town was founded by a group of men who were looking for a place to settle and build a town.

The town's name was changed in 1911, but the original name was never officially recognized. The town's name was changed because the name Macleod was considered to be too long and difficult to pronounce. The town's name was changed to Fort Macleod, which was a more descriptive name.

THE BURNETT & CO. have built a new barn for a Mr. J. H. Burnett, 1414 14th Ave. S.E. in the southwest part of the city. The barn is a two-story building, 14 feet wide and 24 feet deep. It has a large porch and a prominent chimney. The barn is built of brick and has a very modern design. It is a very fine example of the work of the Burnett & Co. building company.

BUICK HOLDING MUSIC FESTIVALS

The annual Musical Festivals are being held in Carstairs. These Festivals are under the direction of the Carstairs Association with Mr. F. P. Crisp, P.M. as general manager. It is expected that 300 people will participate in the six different musical events. The events are: April 18th, Mr. R. B. Brown, Director; April 19th, Mr. J. W. White, Director; April 20th, Mr. J. W. White, Director; April 21st, Mr. J. W. White, Director; April 22nd, Mr. J. W. White, Director; April 23rd, Mr. J. W. White, Director.

BUICK Roadmaster

Give it Air and Watch it Go!

TAKE one gallon of good gasoline—mix it exactly the right proportion with several thousands of gallons of air forced in small doses to a Fireball Engine—and what do you get?

Well, miser, the closest we can come to describing it is to tell you—it's something like the mighty thrust of an airliner—swooning down the runway for a take-off.

All of which is another way of saying that these new and sleek Buicks are packed with a mighty charge of lively, economical power. The high-performance Fireball engines in the Canton and Super Series

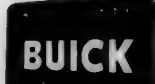

develop 128 horsepower, and the Roadmaster engine has a brand-new four-bar Airpower Carburetor which boosts its performance to 170 horsepower yet delivers more miles per gallon from gasoline!

Yes, the 1953 Buicks have the mightiest engines in Buick's history, but that's only part of the story. See the new ROADMASTERS, SUPER and CUSTOMS as your Buick dealer's and learn the rest of the story for yourself. You'll see interior styling stepped up

to a new plateau of excellence and taste. What's more, you'll discover a whole range of distinctive features which are uniquely Buick's. Here's about coming in and getting the full story soon?

What To Emphasize During The Early Work-Out

What to emphasize during the early work-out is a question that has been asked by many athletes. The answer is simple: to emphasize the fundamentals of the sport.

Setting Down After A Hard Practice Or Game

After a hard practice or game, it is important to set down properly. This involves a series of stretches and exercises that help to relax the muscles and prevent injury.

For a Fast Energy Pick-Up

It's a good idea to have a fast energy pick-up in your diet. This can be achieved by eating a variety of fruits and vegetables. These foods are rich in vitamins and minerals, which are essential for energy production. For example, bananas are a great source of potassium, which helps to regulate fluid balance and muscle function. Leafy greens like spinach and kale are high in iron, which is important for oxygen transport in the blood. Whole grains provide complex carbohydrates that provide a steady source of energy throughout the day.

COMPLETE MAP OF MOON
 Peter Wilkes, a British-born geologist, has completed what he believes to be the first complete map of the moon. Every mountain range, crater and rock structure sighted by the spacecraft are sketched on the map, which, alone, the moon with a diameter of 2,160 miles, is the only celestial body in the solar system that has been completely mapped.

Thousands of insecticide larvae, collected this spring from swarms, have been treated with radioactive phosphorus and scattered over swamps to show them to be eaten by predators which in turn were radioactive. They will then be collected and their radioactivity measured. Those with the highest amount will be propagated for distribution. The insects are much more numerous in the chick. About 100,000 eggs, according to the Dominion Institute, are being collected with great success. Eggs, which will be used to produce more insects, are being collected with great success. How Much Sleep Should Athletes Get?

By Dr. Robert M. Packard, M.D., M.P.H., and Dr. William Dement, M.D.

For the past several years, we have been studying the effects of sleep deprivation on the performance of athletes. We have found that sleep deprivation can have a significant negative impact on athletic performance. In fact, we have found that athletes who are sleep-deprived perform as poorly as those who are intoxicated. This is a serious problem, as sleep deprivation is a common occurrence among athletes. In fact, a recent study found that 80% of athletes do not get enough sleep. This is a concerning trend, as sleep is essential for optimal athletic performance. In this article, we will discuss the importance of sleep for athletes and provide some tips on how to get enough sleep.

Sleep is a critical component of an athlete's overall health and performance. It is during sleep that the body repairs itself and replenishes its energy stores. Without adequate sleep, an athlete's performance will suffer. In fact, sleep deprivation can lead to a decrease in reaction time, a decrease in accuracy, and a decrease in endurance. This is why it is so important for athletes to get enough sleep. The National Sleep Foundation recommends that athletes get 8-10 hours of sleep per night. This is a goal that many athletes struggle to achieve. In fact, a recent study found that 80% of athletes do not get enough sleep. This is a concerning trend, as sleep is essential for optimal athletic performance. In this article, we will discuss the importance of sleep for athletes and provide some tips on how to get enough sleep.

There are many reasons why athletes do not get enough sleep. One common reason is that they have a busy schedule. Many athletes have to wake up early for practice or work, and they may not have enough time to get a full night's sleep. Another reason is that they are stressed. Athletes often experience a lot of stress, and this can make it difficult to fall asleep. Finally, some athletes may have a habit of staying up late at night. This can also lead to sleep deprivation. To avoid these problems, athletes should try to establish a regular sleep schedule. They should also try to relax before bed and avoid caffeine and alcohol in the evening. By following these tips, athletes can ensure that they are getting enough sleep and performing at their best.

Dr. Robert M. Packard, M.D., M.P.H., is a professor of Medicine and Public Health at the University of California, San Diego. Dr. William Dement, M.D., is a professor of Psychiatry and Behavioral Science at the University of California, San Diego. They are both experts on the effects of sleep deprivation on the human body.

He stated that Alberta is one of the few remaining spots in this continent where wild game is still found in abundance in its natural state and that through some conservation methods, this can be maintained. Baseball Boings

Carstairs just a few games behind in the 1st division league game here on Tuesday night. The final score was 10 to 7.

It was definitely not our night, and Carstairs team did not show the class of ball of which they are capable. Kirk, on the hill for the Carstairs, scattered the ball fairly well, but a number of bad errors gave the Flyers the edge.

In a game played tonight with Carstairs, Carstairs showed some of their old snap and fire to win out. A 3 to 6 win in what was easily the best game played so far this season, an 11 inning contest.

It was a tough struggle all the way and Carstairs, after scoring the victory three runs, went on to win them only one more, and at the end of nine innings the count was tied at four all. Kenney Stearns came in as relief in the tenth and held them scoreless for the two remaining innings. Bradley went in for a home run Carstairs, with one in the middle frame. Kenney Stearns was scored by Kirk when Edmondson's riot to second was scored.

Carstairs will play hosts to the Drumheller squad on Sunday in a double header. First game will be at 1 p.m. and the second at 4 p.m.

Use Cars

TORONTO—Some 3,500,000 Canadians use cars in the daily lives, a survey by the Canadian Automobile Association of Canada revealed.

The survey shows that cars are used in the daily lives of Canadians in a variety of ways. Only one out of every 100 cars driven was strictly for pleasure, the report said. J. L. Stewart, C.A.A.C. general manager, and the survey showed that the majority of the people who use cars are being recognized as a "motorized nation."

The survey shows that 4,500 cars were used in the daily lives of Canadians in the 1,000,000-registered cars in the 100 to 1000 age group. The survey also showed that the use of cars is increasing rapidly, and that the use of cars is becoming a necessity for many people.

Glimpse Of Canada's Northland Meant Love At First Sight

EDMONTON — When Frank Conrath had a glimpse of Canada's northland it was a case of love at first sight. Such is the story of the Conrath family, who came to northland to see if the country offered what he needs. It seems he liked it so much he didn't come back for 27 years.

Mr. Conrath arrived in Edmonton in 1900 and went to work for the North West Territories. He was in charge of the mail service and it was his job to go to the various posts in the north. He was the first to see the vastness of the north and the beauty of the land. He was the first to see the vastness of the north and the beauty of the land. Mr. Conrath's northern exploits were chronicled in a series of articles in the "Edmonton Journal" and "The Canadian" in 1927. He was the first to see the vastness of the north and the beauty of the land. He was the first to see the vastness of the north and the beauty of the land.

Beggat—cheerfully? Yes where shall we go?

Dorinda—Has there ever been any so-anity in your family?
Serge's Wife: Well my husband thinks he is the boss.

It is a very and thought, gentle reader that your children twenty years from now, will be reading these same jokes in other magazines.

So you haven't spoken to your wife for six months?
No—I don't like to interrupt.

Mr. and Mrs. Fred W. Hamilton of Winnipeg and Mr. and Mrs. M. H. Day to visit here. Mr. Day is a member of the Carstairs and Mrs. Day has never seen one as short as thirty years.

The ladies from the east country arrived at the Carstairs Hotel today by a special train. They are to stay here again at a later date.

The regular meeting of the Fish and Game Association which was postponed from last Tuesday because of the weather will be held in the hall on Tuesday, Aug. 12.

Carstairs is scheduled to play a double header at Standard on Sunday and a single game with the Merks in Calgary next Wednesday. The next home game will be a double header with Twin Cities on Sunday, Aug. 17th.

Carstairs Pro-Wrestling Club came up with a 13 victory in 1931. Tuesday night Bob Clarke did the pinning honors while his brother Jim did a good job catching behind the plate. The referee played air tight ball making only one error during the whole 7 inning game. Home runs were hit by Paul Lavett and Bob Clarke.

Born in Bannewellville, Can. born in 1858, he came to Carstairs in 1897, returned to England in 1910 to be married. Mr. Stewart came to Carstairs in 1914 and remained there until late 1930 when he returned to Calgary due to illness.

During his years of residence in Carstairs he was engaged in farming. He took an active interest in all community affairs and was a charter member of the Mount-Lodge and the Order of the Knights Star here. Mr. Stewart was a Past Master of the Carstairs Lodge No. 30, Past Patron of the Carstairs O.E.S. Chapter as well as Past Grand Patron of the Order of the Knights Star of Alberta Grand Chapter.

For many years he served as an adjudge with the Alberta Hall of Records and travelled the length and breadth of the province during which time many fine friendships were formed. He will be well remembered by these many friends.

APPROPRIATE

I wish to extend to the operators of the Carstairs community my sincere appreciation for the help and assistance in giving me such a wonderful stay. The Carstairs is a beautiful place and I enjoyed my stay very much. Sincerely,

Baseball Doings

Carstairs split their double head with Drumheller here on Sunday by winning the first tilt 8 to 4 and dropping the second 14 to 6. Brian pitched good ball to win his game, but Stewart just didn't have it in the second game and Drumheller piled up a big lead before Danny Lowman was called in to get the first out in the 8th inning. Carstairs held them from there on in, but were unable to overcome the deficit which had piled up.

On Monday night fans were given another good exhibition, when Don Kirk set the Air Force down 2 to 2 in another league failure. Carstairs is still in second place in the league standing, failing to lose their position in the game with Mercury's here Wednesday night. The game had to be called at the end of seven innings, when a sudden down and rain squall made play impossible. The score at the time was 3-2, with Brian on the hill for the locals and McQueen for Merks.

Westcott W. L.

The monthly meeting of the Westcott W.L. which was held at the home of Mrs. Sheldon Owens was well attended with twenty-two members and three visitors present. The roll call was answered by a "Holiday Highlight".

"Thank you cards were read from those who received gifts and cards on White Day."

A Picture Post Card was also received from our corresponding W.L. in England showing where they spent their annual holiday at "Porth from Barmouth".

Two songs were sung "With Me Love" and "I love you truly".

Mrs. M. G. Galt gave a very good report on the Farm Women's Work she attended in Oshawa.

The Five minute talk by Mrs. W. Owens she gave her trip with the Gordon Club through the Independent District in Calgary.

Natural Gas Still in Future

Dietary citizens are waiting on Monday on the gas franchise as submitted last year to towns along this line by the Canadian Western Natural Gas Co.

As there is still no immediate prospect of securing gas in these towns, no definite action is contemplated here at present.

R. MacPherson, General Manager and J.E. Thomson of the C.W.N.G. laid the writer today that they are interesting the available supplies of gas and are still looking on the plan to supply gas to these towns. However they held out no prospect that gas would be available soon.

Harvest of Good Crop Progressing

No frost has been reported in this district as far this season and the good grain crops are now far enough advanced that a light frost will do little damage.

Some light rain last week and today however a number are waiting for a few more days of good weather to allow the grain to ripen a bit more before washing in some cases, where the grain has been out on the green side it has struck badly and resulted in a poor sample. Some light rain last week and delayed harvest for a day or two, but machines are again booming with better promise.

Garbage Disposal

Householders are reminded that garbage should be placed in covered garbage cans and to make it more readily picked up these must not be too large. Containers should be placed in or near the alley so as to be readily accessible.

All burnable garbage must be burned and such things as glass and bottle cappings and garden vines and tops can be easily placed in a pile and burned when dry.

At this particular time, with the increase in the province, it might be good business for residents to pay a little extra of attention to their garbage disposal facilities.

Weddings

Kent Presbyterian Church in Carleton was the scene of the recent early evening wedding of Miss Beulah Doreen Goodwin, daughter of Mr. and Mrs. C.G. Gilchrist officiated at the ceremony, he was assisted by the groom's best man, after which with glad friends will wish him a speedy recovery.

CARLETON IN CHINOOK LEAGUE BEHIND WITH TWIN CITIES

The country all-stars edged out the city all-stars in the Harvey Hill fourth game in Calgary on Tuesday night by the score of 3 to 2. Proceeds of the game amounting to nearly \$1000, according to reports will be given to the former member's player who is ill with polio.

Carleton's celebrated Drumblin in the first round of the play off for the Chinook league by taking the third game at Drumblin last Sunday 3 to 1. They had previously won one and tied one.

First game of the finale against Twin Cities was played at the Valley on Wednesday night, with Carleton playing unexpected baseball to win 7 to 1.

Ed Archer was drawn to pitch for Carleton but due to a mix up went to Longview by mistake and did not arrive until the fifth inning.

Don Larsen stepped into the breach and allowed only one run in the seven innings he pitched before he was relieved by Archer.

Carleton began by his men mates helped when Twin Cities threatened.

Timely hitting, particularly by Carleton, contributed to the 7-1 win.

The second game of this series is to be played here on Friday night, commencing at 5 o'clock, and Carleton are out to take the series in three straight if possible.

The third game will be at the Valley on Sunday.

Winners of this league are then invited to play the northern winners in Edmonton for the provincial senior championship. It will be a lot of doing, but the boys would like to take a shot at it if they get by Twin Cities.

Ken Brian, who has been a valuable member of our pitching staff is said to be out of the game for the balance of the season due to ill health.

Friends will wish him a speedy recovery.

Service Board Notes

(W. K. Snyder, Field Supervisor)

Temporary Grain Storage—With a bumper grain crop and a premium this fall, every effort will have to be made to accommodate the thrashed grain and to protect it from the weather. Temporary storage may be constructed by using sawdust or sawdust wire. This should be lined with some strong, tough material that will contain the grain. "Flakes" paper or sheaves. A 50 foot length of fencing will make a bin about 16 feet in diameter. It should also be kept in mind when lining this storage bin with paper that not be too continuous length but should be cut in about 10 foot lengths and overlapped sufficiently to allow for expansion. "Grain" should be delivered to the ends of this storage area so that the grain flows evenly along the wall. One should be taken to see that the paper is not torn against the stacking of the grain this storage space.

Phone to your local news or drop a note to the staff telling us if you are going on a holiday. If you have decided to stay put, they will be glad to have you. They will be glad to have you. They will be glad to have you.

The new storage plant in Carleton is now up and running. It will be a lot of doing, but the boys would like to take a shot at it if they get by Twin Cities.

New Industrial Era Looms For Edmonton During 1953

A new industrial era based on Alberta's natural gas will begin for Edmonton early in 1953 when steel shortages and strikes make further construction impossible.

Edmonton's Chamber of Commerce estimates that the city's natural gas will supply the optimum of Western Canada's first long-range chemical industry.

During the natural resources of Alberta's economy at this time, steel shortages and strikes make further construction impossible.

HOME AND HEARS

THE WEEKLY INTERVIEW

When, Walter, to measure money. You have asked for it, and so many people of climate I have had an earth tremor in getting my money that I must think my husband's hand is doing it.

Only one man in a thousand is a leader of men. The other 999 are followers of men.

There are kind, brave, and small-minded men, and one of them is a thousand of the other kind.

Some people are self-centered and converted they can't even pray without thinking how well they are doing it.

Delusions:

Alimony: High cost of living. Great wisdom. The barren wife of a hypocrite.

Monumental Lie: One who says on the staff on kindergarten.

Yeast-bombing: Every girl should hold on to her net, not get to be a girl.

Optimist One who, believing the world is going to the dogs, starts another dog-eat-dog.

Bored—A man who talks about himself when you want to talk about yourself.

Criticism—Something you can avoid by saying nothing, doing nothing, being nothing.

Conservative—One who does not think that anything should be done for the time.

Umbrella—The only thing we can still put away for a rainy day.

Sleeping pill habit forming? Don't be silly. I have taken them for years.

Chasing a woman in love. The trouble begins when you catch her.

Worry is a dealer of inattention thought waiting about a piece of mail.

Any one can give advice, but only the wise ones can act.

Brilliantly think people who give advice in a wedding present before they are in the present for the time.

When little Willie saw the new baby the first thing he noticed was that his mother had any hair or teeth. He said, "Mommy, didn't you agree your nose with him?"

PORE AND BEANS
THE WEEKLY SHOVEL-FULL

The young man had offered his
heart and hand to the young lady.
"Before answering," she said, "I
wish to ask you a question. Do you
detest anything?"
"Anything," he replied.
And she fell into his arms.

If you keep looking back, you
may go that way

Airplane Stewardess—Will all
the passengers please fasten their
belts before we land.
Passenger—I'm sorry, ma'am,
but I won't surrender.

How do you find marriage?
During courtship I talked and
she listened. Now we both talk and
the neighbors listen.

What would you desire most in
a husband? asked the reporter.
"Friend, after half an hour's conver-
sation about men," beamed money
or appearance?

Oh, goodness, beamed old maid
Matilda reverently, if one would
only put in an appearance, I would
n't worry about the beaming or money?

Most of the stumbling blocks
people complain about are under
their hats.

Sentry—Halt! Who goes there?
Answer—Money.
Advancer, Money, and the ten com-
mandments.

Do you approve of matrimony?
Yes, and of any other kind of
money I can get.

Do you brush your teeth every
morning?
Yes, it's the first thing I do be-
fore going to bed.

People will often give three
cheers for something they wouldn't
give anything else for.

The man who says he runs things
in his house may mean the vacu-
um cleaner and the washing ma-
chine.

A recent police report stated that
three separate gangs of criminals
were operating from the same
house. The housing shortage must
really be getting acute.

What makes you think Beavis
would be such a success in poli-
tics?
He can say more things that
sounded well and mean nothing than
any other man I know.

Illustrated Buick Car and Tourist Index

You'll be amazed at
the LOW price of BUICK

TODAY'S market conditions are the kind in which Buick really shines.

Do you know why?

Because prices start down within easy reach of the folks who, in the past, have been in the habit of buying lower-priced cars.

First is—a big chunk of Buick sales now comes from the folks who trade in one of these lower-priced cars.

For very few other dealers, they're getting a lot more comparable.

They're getting more power—and the thrill that goes with it.

They're getting "Buick" comfort. They're getting a ride that costs a million dollars and more to develop.

They like the smooth, the fabric, the extra appointments they find in the most-sopping heavy pictured here.

And they like Dynaflow Drive.

They like the way it handles. They like the way it's engineered. They like the confidence they get out of knowing of the power of its Ford V-8 engine—and they like the miles they get from a gallon of fuel.

So Buick sales are booming. Not just the COUNTRY—but also the TOWN and KNOXVILLE. Folks find that each one is the buy in its field.

When we tell you that business is great, we can back up that statement with figures. More people are buying Buick than any other car at its price or above.

Why don't you come in and see for yourself what's behind this popularity?

If you can afford a new car, you can be the proud owner of a Buick.

PORK AND BEANS

THE WEEKLY SNOOZE-FULL

Ho—Where have I seen you face before?
Buddy—Right where it is now.

A burned child dreads the fire but a lot of games up there will grab many an opportunity that's just out to hand.

My! Hey, but let's see your post card—let's get it with me just bet it's exactly like all the other pictures.

Excited business man—When I speak, I've jumped.
Visitor—Oh, really?—Are you a free trader?

First (timid)—There's something I've always wanted and I never have time to get.
Second (timid)—That's a laugh.

Wife—We are going to the theatre tonight.
Hubby—We are not!

Wife—What?
Hubby—Excuse me, dear, I was just playing him.

If you didn't take so much to know in home, you would be let to get, snuggled the while. You've had some on the walls all your life!

I found my wife I happened to marry a god.

Sam—Good god my wife is a critical condition.
Fred—I never saw a wife that wasn't.

Marrying a questionable woman because of her attractive appearance is silly as buying something you don't want in a pretty box.

YORK AND BEARS THE WEEKLY SHOVEL-FULL

Thousands of men were in the war without receiving a scratch, that's more than can be said for some of the married men who stayed home.

She is a pretty sensible kid. You she wouldn't pay any attention to me either.

Do you brush your teeth every morning?
Yes that is the first thing I do before going to bed.

Do you approve of matrimony?
Yes, and of any other kind of money I can get.

So your husband beat you when you got home at three A.M. oh?
Yes—by about ten minutes.

He—Well since you don't want to marry me after all, perhaps you'll return my ring.
Silly—if you must know, your jeweler has called for it already.

Judge—Have you anything to offer the court before sentence is passed on you?

Soldier—No, your honor, my lawyer took me last dollar.

I have a home to pick with you. All right. At what restaurant?

Some wives listen to every word their husbands say—in their sleep.

Corporal—They say that girl you introduced me to is pretty hard, eh Surge—Sure it is right. It would take a diamond to make an impression on her.

Sally—How did father hint to you that it was time to go home?
Eileen—He dropped a shoe.
Sally—What did you do then?
Eileen—I ducked just in time.

My wife just ran away with my last dollar.
Was he good looking?
I don't know. I never met the fellow.

Grandmother—Johnny, I wouldn't slide down those stairs!
Little Boy—Wouldn't? Heck, you couldn't!

It's all right for a girl to know her onions, so long as she doesn't eat them.

Frances—Where did your wife drive you yesterday in your new car?
Baby—To destruction!

Will—She all turn as stupid as you are?
Woodward—No, my dear look at all the bathstubs there are.

An optimist is a guy who thinks that his wife has quit smoking cigarettes when he finds cigar butts around the house.

A man had been looking for a church to attend and he happened into a small one where the two gravestones were reading with the stones:
We have left upon these things which we ought to have said, and we have done these things which we ought not to have said.
The man sighed with relief and dropped into the pew. "Thank the Lord," he said. "I found my own kind of a text."

POKE AND MEANS THE WEEKLY NOVEL—FULL

A new for every previous year of your life, read the novel entitled with an order to save two dollars when the young man's birthday gift to his fiancée.

A good customer deserves extra service! thought the editor and there is an extra dollar bonus.

Don't wait till the 30th of the year, but order now.

The Little man—He's giving notice to resign. I've had him for only three years and now I'm moving to the house across the street.

Landlord: But what other all this time?

The little man: "I don't really know. I want to be a spy in an hour."

What with all these new clothes designers, the next creation to hit the fashion magazine, may be a garment evening suit.

Taxi Driver, pulling over to the curb. Did I hear somebody else say to stop?

Passenger: Drive on. Do you want to talk to me?

A date hasn't later in what you can have. "The morning after."

How. "Why do the buses turn red in the fall?"

How. "They are probably blushing to think how green they have been all summer."

He is sure lucky he has a cigarette lighter and a wife and both of them with.

First wife—What other does you are working in the reception desk?

Second wife—We're supposed to wear something to match the color of your husband's hair. What will you wear?

First wife—Goodness! I don't think I'll!

A low budget tonight often can enable having his calves together.

Don't have any wife wouldn't even be a date because when they take the home to cold in the winter. "They leave the door open so long when coming in."

That's a nice suit you have on; do you mind my making how much you paid for it.

Red at all, a hundred and two dollars.

Don't you think that's quite a bit?

Yes, but I got into pairs of pants with it.

ALBERTA WHEAT POOL

- Information -

The Alberta Wheat Pool's assets include 61 country elevators with 610 bins in this province and also in the Creston and Burnaby Creek localities in British Columbia, the total capacity being 23,844,000 bushels. The Pool also owns a \$13,500,000 local terminal at Vancouver with a 2,400,000 bushel terminal in Port Arthur. The grand total capacity of the entire system is 26,244,000 bushels.

Since its inception Alberta Wheat Pool has made the following payments:

Patronage dividends in cash	\$5,000,000
Interest on reserves paid prior to 1955	\$21,250
Repayment of debt to government	\$555,000
Redemption of reserves	\$2,500,000
Total	\$8,076,250
Patronage dividend paid in reserves	\$3,995,000

The ownership of the Alberta Wheat Pool and Pool Elevators units has formed members of grain to a Pool elevator and purchasing reserves to the value of \$12,000,000.

The Pool policy provides for the payment of patronage dividends, partly in cash and partly in reserves, in years when earnings are sufficient to justify such action. Members can however receive reserves by purchasing Alberta Pool Shares.

This substantial Pool dividend system is a valuable privilege. It is approved for the benefit of the membership.

The Wheat Pool's objective is to keep handling charges as low as possible and return some of the cost in the form of patronage dividends. This is to return some of the cost to those who have come to them.

FOUR AND MEANS THE WEEKLY MOVIE-FOUR

When the very, very big lady walked into the room, four fellows over the ground bent almost double and bowed.

Three days later, the customer again, having been told at my request.

Very few people they were, as planned one building house keep or to another. And when they left the lady steps to say, she said, "We're leaving tonight, but I hope that the woman who is to describe the house."

I was once a woman by my mother's name.

Have you a doctor's prescription? The lady here is a photograph of her.

We have some extra material on hand, suggested the girl in the room. The customer accepted the material. We never have any extra material.

Was that what you do if I should die and leave you? The lady here is a photograph of her.

The average man is in proof that a woman can read a paper.

POKE AND MEANS THE WEEKLY SHOVEL FULL

What kind of sport is this you
would ask?
Spring Lamb, sir.
I might have known I've been
cheating on one of the springs for
two last half hour.

When visitors came today, aged
Dix, took them to see the pigs in
their electric fence enclosure, ex-
plaining, "When the piglets head in
to the 'electric fence', there'll be a
small alarm."

I hear your son is taking interest
for the farm.
Yes, with a private teacher.

Any of you fellows know any-
thing about shorthand? A sergeant
asked a bunch of recruits.

There was a quick response. The
sergeant fell out at once.

Right. They're short-handed at
the headquarters.

So the six spent the morning
peeling potatoes.

When a fellow gets up early about
his job, I am always reminded of a
graveyard I saw once. Here lies
Samuel Jones, filling his last cer-
tity.

Be true to your tooth, or they
will be false to you.

Did you really cure your hun-
dred of sleepwalking by putting
a tub of water beside his bed?
You, and I also cured myself of
putting a tub of water beside the
bed.

If you are near sighted you can
still get into the army. They're not
special machines right up close to
the enemy, so you can't miss.

The new father who had wait-
ed the floor all night with the first
son and hair, decided the next morn-
ing to take him in for a 1,000
mile check-up.

AMERICA TO BE KNOWN THE SAME AS LAST YEAR

There was a good turn out for the Arena meeting last Thursday night, when plans for the operation of the arena for the season were discussed.

It was decided to try to run the arena as last year and water was not asked to take the risk for a week. Local organizations will again be asked to handle the sale of tickets for the season.

Annual opening out for the arena will be held in about 1000 ft sufficient fuel to both cooking and the committee felt that the arena was kept out of the end if people will continue to co-operate.

Visitors should contact either Carl Robinson or Mrs. Helen Robinson for their work to work.

B.C.M.P. CHAIRMAN

Constance Marshall, who has been in charge of the B.C.M.P. work in this district for the past several years, is being named to Chairman of the new Council. She will be placed here by Constance Clayton, Secretary of C.P.W.

Constance Marshall has done a great deal during her stay in the district and has made a wide circle of friends who will be sure to see her soon.

GRAIN BOARD ORDERS GRAIN CARS SENT HERE

Telegrams were dispatched this week, under the signature of the local Chamber of Commerce, to C.E. Johnston, M.P., the Board of Grain Commissioners and the C.P.R. officials at Winnipeg, protesting the way this district was being neglected with respect to railway cars for loading out grain.

It was pointed out that we were not receiving our just share of grain shipments, which was creating a steadily worsening condition for both farmers and business men as regards money with which to carry on.

A telegram was received today from the C.P.R. to the effect that the Board had agreed to "be speeded here for grain loading."

Just how much relief it to be received from the complaint remains to be seen.

WATER TURNED ON

The water system was turned on last Saturday and except for a couple of short outages has been working fine since.

Reversers in all but the south end of town are in operation. The pump will not be used until the pumps for the sewer lift arrive and are installed. The date of arrival is still uncertain but they are promised as soon as possible.

HOCKEY MEETING TO BE HELD FRIDAY NIGHT

A meeting of Carstairs Hockey players will be held in the arena on Friday night at 8 o'clock and all interested are invited to attend.

Local representatives attended the meeting at Red Deer on Wednesday night and have returned a Carstairs team in the intermediate league with Lacrosse, Red Deer, Hinton, Medicine Hat, Carstairs, and Carstairs. The club has a very fair material in prospect locally and has the promise of some players from Crossfield to bolster the team.

If you are interested in hockey hockey here, be at the meeting on Friday night.

CURTING BONSFIRE DATE SET FOR JANUARY 14

The annual meeting of Carstairs Curtig Club was held in the rink on Wednesday evening, with a record crowd of curiers in attendance. Election of officers resulted as follows:

President—E.M. Morrison Vice—H.C. Peterson Secretary—W.J. White

Other committees were also appointed and Jack White hired as caretaker. Two were left the same as last year, \$10 for the season and \$1 for the bonspiel.

One of the bonspiels was set for the week of January 14th, and an invitation will be extended for neighboring clubs to participate.

It is expected that the club will again have about seven or eight this year and play will commence as soon as the ice is in shape.

ILO Seeks to Better Child Labor Conditions

Child labor standards can be improved, millions of Adam Smith's followers are convinced. Hence the International Labor Organization (ILO), a U.N. specialized agency, is working to improve child labor conditions. At present, some 100 million children are employed for their services or otherwise in contravention of a long-term laboratory. Action conditions will soon meet under ILO auspices to determine measures to abolish such provisions and improve employment conditions for young workers.

NEW POWER SERVICE FOR
 COUNTRY HOME VISITS
 The Canadian Power Institute's
 first freight carrier between Montreal
 and Toronto was opened up
 and operated by the
 Institute of Power Service
 and the railway for use in the
 winter.

Under the new system, ships
 will be picked up in one city
 by motor. The motor will then be
 loaded on the flat car from across
 and the motor delivered. After
 being used it is transported to an
 overnight stop intermediate between
 cities, after which it is picked up
 by the traffic and the goods delivered to the date of the consignee.

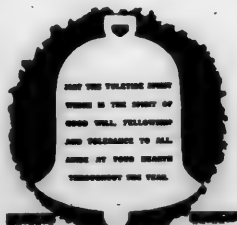

Service is expected by elimination
 of handling in freight ships, damage
 is expected to be minimized and
 the convenience of pick up
 and overnight delivery will be increased. If the Montreal-Toronto
 service is successful it is expected
 that other applications of the
 service will be made.

Any boy who has a friend who is always trying to invent something that'll make him rich over night, the latest about was a comic magazine man with a factor there to be allowed to get a ribbon that will buy him.

John—I shall now mention you to Life at Liberty.
Fleming—Do you mind if I take the Reader's Digest instead?

Teacher to young boy: Why do you ask me why, teacher than you? What do you want to be when you grow up?
A teacher, answered the boy.

Wife—How have Walter I all days apart as I think.
Fleming—Oh, no, my dear. You would quite often.

Chadler—I will say the post to be brighter than the word.
Fleming—Oh, I don't know. They have been first good points.

My Shop—Where's that shop that's made of metal?
Chadler—Oh, I don't know. It's a shop that's made of metal.
My Shop—Where's that shop that's made of metal?

You're going to India? It's very hot there. Aren't you afraid the climate might disagree with you?
It wouldn't do!

One says death to another: "Do you?"
Teacher—Can anyone tell me why? Mad? No.
Student—I don't think he had a regular home I guess he belonged to the floating population.

The young boy who keeps wet, the clock is likely to say just one of the hands.

Mother (wishing Junior for school): Look, Junior, you have enough dirt in your eyes to plant potatoes!
Junior—When and put up all the seeds.

The U.S. Presidential election turned out to be a banner election.

Henry—Did your teacher tell you?
Teacher—No, that's why he had his wing.

We have seen hairless dogs and I have seen hairless men but we never seen an hairless rabbit.

Bank teller—Do you have a personal account here?
Borrower—Yes—my sister and I have a joint account.

THE WEEKLY MOVIE PULL

Any boy who has a friend who is always trying to invent something that'll make him rich over night, the latest about was a comic magazine man with a factor there to be allowed to get a ribbon that will buy him.

John—I shall now mention you to Life at Liberty.
Fleming—Do you mind if I take the Reader's Digest instead?

Teacher to young boy: Why do you ask me why, teacher than you? What do you want to be when you grow up?
A teacher, answered the boy.

Wife—How have Walter I all days apart as I think.
Fleming—Oh, no, my dear. You would quite often.

Chadler—I will say the post to be brighter than the word.
Fleming—Oh, I don't know. They have been first good points.

My Shop—Where's that shop that's made of metal?
Chadler—Oh, I don't know. It's a shop that's made of metal.
My Shop—Where's that shop that's made of metal?

You're going to India? It's very hot there. Aren't you afraid the climate might disagree with you?
It wouldn't do!

One says death to another: "Do you?"
Teacher—Can anyone tell me why? Mad? No.
Student—I don't think he had a regular home I guess he belonged to the floating population.

The young boy who keeps wet, the clock is likely to say just one of the hands.

Mother (wishing Junior for school): Look, Junior, you have enough dirt in your eyes to plant potatoes!
Junior—When and put up all the seeds.

The U.S. Presidential election turned out to be a banner election.

Henry—Did your teacher tell you?
Teacher—No, that's why he had his wing.

We have seen hairless dogs and I have seen hairless men but we never seen an hairless rabbit.

Bank teller—Do you have a personal account here?
Borrower—Yes—my sister and I have a joint account.

Two-Headed Turtle Has Life Of Castles

Indian Hunter

Airraunus Rex Johnson, a Chippewa Indian from Cape Croker near Oroseound, Ont., killed enough muskrats to keep himself in food for 30 days during an R.F.C. winter hawk survival course 100 miles west of Sarnia. Using only an ax, hunting knife, rod and reel from a park and gun store, Johnson made this record on a set of well-thrived muskrats. His instructors said the Indian was in his element in the cold and hunted right with his Canadian trap net hunters do with muskrat streams. In the background is a view of the type in which muskrats live during the winter survival course.

SEATHSMAN GETS NO SYMPATHY—Residents of Albany, New York, wanted no sympathy on Ernest C. Seathsm, whom they accused of blame for the weather particularly when it had. His meteorological or weathering for the area and even after he predicted a heavy snowfall and warned residents to stay at home, here is a stick fast. This is so used to had weather, he shows his non-ambition by catching up on his reading while he awaits a low tide. (United Press Canadian)

CANADIAN HOPES TO SELL MOTORCARS—Hoping to capitalize on the popularity of small cars, Canadian engineer ALVIN KILBICKI promised the motor to which he is travelling through Europe and intends to continue through Africa. The motor which he hopes to market for about \$450, is light and has a two-way radio. (Central Press Canadian.)

A Life of Confusion

Harold, a two-brained water beetle found by a fisherman near Morgan City, La., is compared here in size to a silver dollar. Harold's life is one of continuous business with his head outside his legs. When one head is out to swim, the other might want a drink, instead of food. The result—Harold swims around in a circle. Dr. William G. Stoll, biologist at Mississippi College, said each head has independent action and controls one side of the body.

IT'S ALL A MATTER OF CONCENTRATION—In Rome, Italy, Luigi D'orazio shows how he concentrates his power on a pretty young patient. D'orazio and Ardilio D'Angelo, Italy's top "magi," or better-known perhaps as sorcerers, were brought in court by the Italian Medical association to explain the amnesia alleged to be abusive medical practices. The well-known "magi" claim they can heal by merely concentrating their eyes on the ailing body and waving their hands over the afflicted part. They never touch the accusers without a protest and declare they can prove that what they do is an *hocus pocus* and not requested with medicine.

Labor hard bargaining helped an automotive production line to speed up, but it cost the workers a lot of money.

Special to THE NEW YORK TIMES

NEW YORK, Jan. 10—The workers at the Chrysler Corp. plant in Windsor, Mich., have won a victory in their fight for a new contract. They have secured a 10 percent raise in wages, and the company has agreed to a new contract that will allow them to work longer hours without a corresponding increase in pay.

The workers' union, the United Auto Workers, has been fighting for a new contract for several months. The company has been offering a new contract, but the workers have been rejecting it. The new contract would have allowed the workers to work longer hours without a corresponding increase in pay.

**EXCELLENT WAY TO
CELEBRATE BIRTHDAY**

CHONG KONG, Aw Shoon Hwa (Chinese) tiger balm king, celebrates his 20th birthday by presenting more than 100,000 Heng Kong dollars (about \$16,700) in cash and gifts to 50,000 elderly men and women. The recipients line up at a local hotel to get each a bag of soap, a package of cigarettes, a tin of food and cake and a tin of Tiger Balm—the potent medicine which made Aw Shoon Hwa a millionaire.

U.S. REPTONS AT TATLA, MARIKUT TO CANADIAN—La. With the CNR starts the process of the U.S. lifting its embargo on the transportation of Canadian livestock and dressed meat by branding this young steer "No. 1" on his arrival at Umanitovik on Chitina. Since the ban was established a year ago after an outbreak of foot-and-mouth disease in southern Saskatchewan, Canadian meat, whether on the hoof or in the carcass, has been banned at the border. Canadian cattle were not allowed to compete at U.S. fairs, and even U.S. buyers were prevented from bringing their bill back from Canada. Shipments of hay and straw were also barred because of fear they would be carriers of the disease. The lifting of the embargo opens a \$120,000 cash-a-year market to Canadian cattlemen. Canada, U.S. May Unite to Combat Sex Lamprey, Killer of Lake Trout

Canadian and American scientists are working to develop a method to control the sex lamprey, a voracious predator of lake trout. The lamprey is a parasitic fish that attaches itself to the side of its host and sucks out its blood. It is a major threat to the lake trout population in the Great Lakes. Scientists from both countries are working together to develop a method to control the sex lamprey. They are using a chemical called 3-trifluoromethyl-4-nitrophenol (TFM) to kill the lamprey. The chemical is applied to the water in the form of a bait. The lamprey eats the bait and dies. This method has been successful in controlling the sex lamprey population in some areas. Scientists are now working to develop a method to control the sex lamprey in other areas.

Canada, U.S. May Unite to Combat Sex Lamprey, Killer of Lake Trout

Canadian and American scientists are working to develop a method to control the sex lamprey, a voracious predator of lake trout. The lamprey is a parasitic fish that attaches itself to the side of its host and sucks out its blood. It is a major threat to the lake trout population in the Great Lakes. Scientists from both countries are working together to develop a method to control the sex lamprey. They are using a chemical called 3-trifluoromethyl-4-nitrophenol (TFM) to kill the lamprey. The chemical is applied to the water in the form of a bait. The lamprey eats the bait and dies. This method has been successful in controlling the sex lamprey population in some areas. Scientists are now working to develop a method to control the sex lamprey in other areas.

CANADIAN CHINESE NEWS

Canada, in the United States, is a country of immigrants. In the past, the Chinese in Canada have been largely concentrated in the West, particularly in the Pacific Northwest and the Rocky Mountain region. However, in recent years, there has been a significant increase in the Chinese population in the East, particularly in the Great Lakes region and the Northeast.

The Chinese in Canada are a diverse group, with many different backgrounds and experiences. Some are immigrants from the mainland, while others are the children of immigrants. They are involved in a wide range of activities, from business and industry to education and the arts.

One of the challenges facing the Chinese community in Canada is the issue of language and culture. Many Chinese immigrants do not speak English, which can make it difficult for them to integrate into Canadian society. However, there are many organizations and programs that provide support and resources for the Chinese community.

The Chinese community in Canada is a vibrant and growing one. It is an important part of the Canadian mosaic, and its contributions to the country are significant. As the Chinese population continues to grow, it is important that we continue to support and welcome them.

There are many ways in which the Chinese community can contribute to Canadian society. For example, they can participate in cultural events and festivals, and they can work to improve the lives of other immigrants. By working together, we can build a more inclusive and diverse Canada.

The Chinese community in Canada is a testament to the power of immigration. It is a story of resilience and achievement, and it is a story that we should all be proud of. Let us continue to support and welcome the Chinese community, and let us work together to build a better future for all.

The Canadian government has announced that it will be providing a report on the activities of the Chinese community in Canada. This report will be the first of its kind, and it will provide valuable information on the size and composition of the Chinese population in the country.

The report will be based on data collected from a variety of sources, including census data, immigration records, and community organizations. It will provide a comprehensive overview of the Chinese community in Canada, and it will highlight the contributions that the community has made to the country.

The report will also identify the challenges that the Chinese community faces, and it will provide recommendations for how the government can better support and welcome the community. This report is a significant step towards a more inclusive and diverse Canada.

PROOF POSITIVE
of Pontiac's
ever-growing popularity!

Pontiac again gives dramatic proof of its ever-growing popularity! The passenger car registrations (based on motor vehicle registrations) for the industry and non-industry in 1952 show that Pontiac cars were sold in 1952 in the United States in the following order: Chevrolet, Ford, Chrysler, and Pontiac. This is a significant achievement for Pontiac, considering that it was only in 1951 that it was ranked 11th in the industry.

Pontiac's success in 1952 was due to a number of factors. First, the company introduced a number of new models, including the Pontiac Wildcat, which was a major success. Second, the company improved its marketing and sales efforts, and this helped to increase its visibility and popularity. Finally, the company's commitment to quality and reliability was a key factor in its success.

Pontiac's success in 1952 is a testament to the power of innovation and hard work. It is a story of a company that was willing to take risks and to push the boundaries of what was possible. Pontiac's success is a source of inspiration for all of us, and it is a reminder that with the right combination of talent and effort, anything is possible.

He ain't yet; but he'll soon be

"You sorry, Dad, said the boy, but
that's the best girl I can get with
the car we've got."

A middle-aged farmer took his
wife to the country fair, and while
there they entered a tent where a
couch dance was being held.
The farm wife stared a moment at
the girl, and then whispered, "Josh,
I think we'd better get out of this
place."

Josh pointed to the platform and
said, "Let's wait 'til she gets over
her stage fright. Ma, the poor little
thing's so scared she's shaking in
her shoes."

Tramp—You couldn't see a man
stare, could you, madam?
Madam—Not very well. I've
seen madams stare.

Did you hear about the man who
had a waterproof, shockproof, un-
breakable, anti-magnetic watch?
He lost it.

He—"Please!"
She: No.
He: Just this once!
She: No.

He: Ah, heck Ma! All the rest of
the kids are going bar-b-viet.

Gary: Say can you let me have

Al: No.
Gary: "minutes of your time?"
Al: — trouble at all?

He—I don't give money to people

He—Whisper those three little
words that will make me walk on

She—Go hang yourself.

At the Fish and Game meeting
on Monday night it was decided to
hold a crew shoot early in June
and also to hold a hunter's and
fisherman's night whenever the
committee could make arrange-
ments.

It was decided to hold the fish-

gular members, for the biggest fish
caught anywhere in the province.

The crew and muggie boats of 36
per cent of foot is now on and it
was decided to offer a special prize

A SAILBOAT

A tribute to the late Edwin Reid
by his son-in-law, Lloyd Caldwell.
He keeps upon a hillside where
The hillside used to roam;
A quiet country hillside
Near his Red Deer Valley home.

Two very hard to say good-bye
To one we loved so dear;
Their memory lived on every
ground,
And Angels hovered near.

But the days will shortly brighten
The hills will smile away,
Proud plants will blossom forth
When falling leaves lay.

How kindly will bring their constant
smile,
As dawn breaks there the sky;
While he clings on in silent prayer
Upon the hillside high.

On another sunny hillside high
Upon the distant shore,
When the clouds of the Angels
step.

A voice hovers near,
And he lives upon a hillside, in
A land of endless day;
Where the shadow lies, has covered
And the hills have passed away.

ALL THAT FISH OVER A LITTLE BROT—Gypsy, 10, 1/2, of Mr. and Mrs. James Aischbach, of Lehigh Park, spent yesterday at the Aischbachs' share of a summer treat just finished by her husband. The Aischbachs, who are of the Lehigh Park section of the Lehigh Valley, are both ardent fishermen, share the problem of keeping their fish in one spot by building her smaller oval over the back of a streamside tree, and the fish are in the water.

THE CONCRETE WALL BATH—Charles F. Fantaistic, Smith, was not out from Cabrillo Beach, Calif., to "water-walk" his way to Catalina Island, is shown outside his apartment treadmill a few moments before the four ton tanks came apart at the seams. He was rescued three miles out of the bay by life-guard ships. Another attempt also ended in failure.

Thirty years ago the town of Frank, Alta., was buried under 20,000,000 tons of limestone that fell off Earl mountain. The slide as it is called, shows clearly as a white slash on the mountain face. The town of Frank, Nod. Pass is in the foreground—C. M. P. Photo.

It was a bleak morning—the hills were shrouded in fog, and the little valley between the woods and ridges drew away like a dream. The muddy river, swollen by the recent rains, drained Turtle, so Tarn said, because of its rounded, hilly shape. The valley was the scene of a fierce rivalry that it was deeply crevassed.

A tiny mother cat perched on Julian Nemes' lap, of Chicago, in Illinois, to give birth to six kittens. Nemes and she had left a message in front of her nest side of a highway, saying that she had laid back five 10-month-old cats for her owner. When she returned the cat was accepted by the end and her mother kittens.

**POKE AND MEANE
THE WEEKLY NOVEL-PULL**

A lion had escaped from the circus and was roaming the country. The police chief rounded up all the able bodied men in the village to go out and hunt the beast. Before we start, he said, I'll buy everyone a drink. All accepted except Joe Cume on Joe have one on me, said the chief. Never said Joe, but me. It gives me too much courage.

Willie—I was a prize in school today for answering a question. Teacher asked the class how many legs a goat has and I said three. I was closest.

Rosies and Mandy had just been married and as soon as they were declared man and wife, Rosie hit her one on the jaw that knocked her half way down the aisle. "What's the matter," asked Mandy? What's that for? "That's for nothing, baby," replied Rosie, "so you better watch out."

Dear Dorothy, write the sweet young thing, do clever men make the best husbands? The reply—clever men don't become husbands.

Temperance Speeher—Liquor has killed more people. Smoking has killed more people. Late hours and high living has killed more people. Votes from Audiences—What kills all the folks who live right.

One hot and dusty day a motorist was driving through the country when he noticed that his oil gauge was not registering. He stopped and found that he had a leak in his oil line. It was easily fixed, but then he had no oil.

He went to a nearby farmhouse and asked the kindly old lady who answered the door if she had any oil. She shook her head.

Have't you any kind of oil, either oil, maybe.

No, she said, I haven't any oil but I could fix you a dose of salin.

A pastor received a call from a large church, offering a much better salary. He replied that he would prayerfully consider and report.

A short time later the pastor's son was asked if his father had decided to accept.

"I don't know," the boy replied. "Papa is still praying, but mama has everything packed."

LETTERS THAT TALK

(continued from page 1) supplied plenty of ice-cream and pop for all the visitors.

SAVING A LIFE....

BY ARTIFICIAL RESPIRATION
BACK PRESSURE-ARM LIFT METHOD

Each year many people are the victims of asphyxiation. It has been proved beyond the shadow of a doubt that artificial respiration is the most effective method of saving a life. The Canadian Red Cross Society First Aid Swimming and Water Rescue Services has supplied this information in regard to the newly adopted method of artificial respiration.

The first thing to remember is that if the victim is breathing, maintain normal breathing. Do not attempt to force air into the lungs. If the victim is not breathing, the first aid swimmer should immediately begin artificial respiration. The first aid swimmer should immediately begin artificial respiration. Lose 2 To Merces; Win From R.D.

Carstairs dropped both games of
mercenary league with Merces in
Calgary on Sunday, losing the
first game 3-2 and the second 10-2.
Kirk did not suffer his first loss
in the afternoon game, after win-
ning 12 straight games and Lloyd
Carstairs split the mound duty in
the night game.

Red Dool lost an eleven inning
game last Wednesday night on
an overtime to first, which allowed
the winning run to cross the
plate.

It was a tight, tough game all
the way and Carstairs lost their
only 2-0 lead, in the 7th inning
when Red Dool scored a pair Don
Kirk did the pitching for Carstairs
and Kruger for Red Dool. Lloyd
Carstairs, with four hits for five
runs led the local battlers.

Next baseball action will be on
Friday night, when Merces will
play a game here.

Carstairs will play a game with
Merces at Didsbury on August
19th. The game is called for 5:30.

Mrs. Eric Leigh and Joan Rich-
mond returned on Monday from
Waterton Lakes, where Mrs. Leigh
and Joan was Sports Lead
er for the two C.G.C. Camps.

While at camp the National Film
Board shot colored movies of the
campers and Joan was one of 14
who reached the top of Mount
Crandall, which is over 1000 feet
high.

Mr. and Mrs. Carl Richmond
spent the week-end in Waterton
and thus brought Joan and Mrs.
Leigh home.

Seven day, died here last night
after a long illness. He was
thought to have been poisoning.

Two of these have been taken to
the veterinary at Oids for examina-
tion and their stomachs and con-
tents were sent to Edmonton for
analysis in an effort to determine
cause of death.

The R.C.M.P. have been notified
and are waiting the results of the
analysis. It is just possible that
the poison has not been set out de-
liberately to kill the dogs, but if it
has, and the guilty party is discov-
ered, it will prove costly as the
own are in a frame of mind to
pursue him and the damage could
run into several thousands.

Dogs owned by Bert Mayr, Art
McCoy, Roy Morgan, Albert Hobbs,
Jack Devine and two owned by
nearby farmers are said to have
been destroyed. Two cats are also
listed as poisoned.

The Carstairs Girls Club will
hold a dance in Carstairs Com-
munity hall on Friday, August 14th.
A charitable bazaar is being
offered as a door prize.

Weddings

Reverend Lutheran (Charn) Ind-
berg was the source of a lovely
afternoon wedding on Tuesday
July 24th before the altar in the
beautifully decorated church, with
wedding guests, and the
hospital service took place for Mar-
jorie Ruth, second daughter of Mr.
and Mrs. Herbert A. Carstairs of
Westport, Alberta and Mr. Lyle Bus-
sell Johnson of Oids, son of Mrs.
Christine Johnson and the late Mr.
Johnson formerly of Oids.

Rev. R.H. Gertsen of Cyston B.C.
urled of the bride performed the
marriage ceremony.

The bride who was given in mar-
riage by her father looked lovely in
an embroidered white nylon (sleeve-
less) gown, fashioned over
cristoline, to give a brilliant effect
with tiers of nylon lace on either
side of the skirt making for a red-
ding appearance, a strapless
bodice over which a separate short
sleeve lace jacket with long pointed
sleeves, buttoned high to the
neckline and finished off with Pe-
ter Pan collar and white lace pearl
button closing down front.

Her beautiful hand painted and
embroidered finger tip veil mistled
from a Lady Juliet cap which was
decorated with the same small
pearls as her dress.

She carried a beautiful bouquet
of white hydrangeas, lilies which
which had slightly, colored pink
straw petals lending a cultured
touch to her lovely appearance.

The two bridesmaids wore
her lovely bridesmaid and Elaine, the
sister to maid of honor in ivory
and the latter as bridesmaid in
lilac green wearing identically styled
gowns, with fitted (sleeveless) bod-
ices and full skirts in cordial
length with head bands made of
metal material as their dresses each
had to be worn small, lace-trimmed
sleeves and they each carried small
bouquets of yellow and pink
lilies and carnations.

Mr. Ken Adkins of Westport Al-
berta acted as best man while the
groom's brother Mr. Victor Johnson
of Oids was head usher, assisted by
the bridesbrother, Mr. Leslie Gar-
den, and uncle, Mr. Cecil Phipps
of Oids.

During the signing of the register
Mrs. Joyce Wilson of Calgary
sang "The Wedding Prayer" and
later at the reception, sang "The
Cantor". Mrs. E.E. Fox supplied all
the wedding music for the occasion.
Both mothers of the bride and
groom were in the receiving line.
Mrs. Gertsen in a navy blue dress
complemented by pink and navy
accessories with a corsage of pink
Sweetheart roses, and Mrs. Johnson
in a lighter shade of blue summer
silk with white accessories and a
corsage of deep red Sweetheart
roses.

The reception followed in the
church basement, beautifully dec-
orated for the occasion in the same
color motif as the bridal attire.
The menu, lavender and white
while. Flowers were set for over 100
guests.

The bride's table was covered
with a three-toned wedding cloth,
trimmed in tulle and small red
roses, flecked on either side by tall
white tapered and bouquets of pink
and white garden flowers were used
on the guest tables. Rev. E.B. Fox
presented the toast to the bride, re-
sponded to by the groom.

Mr. E.T. Wiggins acted as toast-
master at the reception and over-
saw the entertainment in the gall-
ing room speeches during the
course of the supper hour.

Two granddaughters, Mrs. E. Gar-
den and Mrs. R. Phipps were present
at the head table, as was the
bride's 60-year old great-grand-
mother, Mrs. John Phipps, who
was making her first appearance
at the wedding.

The Red Cross will hold a blood
donor clinic at Carstairs on Wed-
nesday, August 8th.

Sack Metis Adopt White Man's Ways

REGINA.—Anthropological studies of the northern Saskatchewan Metis in the last few years have shown that they are already adopting the economic and social customs of the white man.

J. W. Chapman, provincial surveyor of natural resources, says the economic and social information which will help govern the future of the Metis people will be gathered from the study of their customs and development.

The Metis, he said, had been for some time of the white man.

This study was conducted by V. T. Chapman, a graduate in anthropology from the University of Toronto. The report is being published in the form of a booklet.

Chapman said that the Metis people are following the white man's lead in many ways.

United Church Notes

During the latter part of the
summer the Women's Association
of the Church sponsored a project
of having the Carstairs Church re-
shingled with asphalt shingles, a
project which gives the whole structure a
much improved appearance.

The shingles was shingled as well
as the roof was partly met by indi-
vidual subscription.

The Sunday School has been re-
opened following the pole has

this day by celebrating Holy Com-
munion at Carstairs United Church
at 7:30 p.m. today October 6th.

Our church extends a cordial wel-

The C.G.T. Group under the
leadership of Mrs. M. Jenkins, has
re-organized for this fall program.
Thursday evening of this week was
initiation night and seven new

teries of the order. The church hall
was an eerie centre for a brief
period, but the whole evening con-
cluded with a social and lunch, and
several were all set at rest.

The Church Circle is meeting this
week for re-organization. Rufus
Shawling is our conductor again
this year and it is expected that
a number of new members will be
coming in. If you are interested in
singing, get in touch with our con-
ductor.

Another New Bank Customer

John's bank account is one of nearly 9,000,000 now carried by Canadians in the chartered banks — 3,750,000 opened in the last ten years alone. Today, practically everybody goes to the bank. Competition among the banks in all forms of banking service is one of the reasons why you, like John, can expect prompt, efficient, courteous attention to your needs at your own local branch.

THE WEEKLY MINERAL PULL

First mention—how do you re-
member people's names?
Second thing. Well, I remember
them. For instance, Mrs. Wrenham
has a large number 1 membership
Bureau number.
Next day the first mention was
Mrs. Wrenham on the street and
last night, Mrs. Wrenham.

Why is a news reporter like a
musical genius?
Because he has a common taste.

Why are you wearing your slacks
so tight?
I want a better look at that girl
dressed about that suit.

The best way to fight with a
woman is with your hat. Grab it
and run.

He didn't want to marry her for
money, but he didn't want to
lose it.

What will I do if all I have
has gone?
Mrs. Brown, I tell you.
I'll love it. I'll love it. I'll love it.

Medical science has discovered
in case of diabetes. And vice versa
that a ruler is sometimes beneficial.

You know the fellow who says he
runs things as loose?
The woman making marriage, the woman
and the laws make.

The stenographer was making a
collection for a campaign when
she was about to sign a check and
apparently one of the male clerks
and said, "Why're you going to
break a check?"
Clara just explained the clerk,
"I'm bringing the money."

Barbar, charged with theft was
on the witness stand, and the judge
wished to discover if he knew the
value of an oath.
Barbar, if you tell a lie under-
stand, do you know what happens?
Yessah, judge, I guess to tell the
judge a lie you tell the truth? Pre-
sided over the case.

Along a homestead road, a woman
with a sign was walking to a
tree. Her sign read: "No Parking. Let's
go to the tree and get the sign."

Many Farmers Burn Straw And Stubble -- Wasting Source For Good Growing Soil

Poor physical condition or lack of good till is a growing problem on many western soils. W. E. Johnson, Saskatchewan provincial soil conservation specialist, said recently: "Mr. Johnson stated that many farmers are inclined to burn straw and stubble, thereby wasting the largest source of organic matter which is that part of the soil mainly responsible for good till."

THE WEEKLY MOVIE LIST

Joe—How did you get that black eye?
 Ben—I went to a party last night and I was drunk by the beauty of the place.

Tom—Dick swallowed a frog, a horse, and a snake last night.
 Tom—Sure did. He's liable to break anytime.

Bill—How did you make out in that fight with your wife?
 Mark—Oh, she came crawling to me on her knees.
 Bill—What did she say?
 Mark—Come out from under the bed, you coward.

She—What you join me in a cup of tea?
 He—Don't you think there's more for both of us.

Walter—Would you like to drink Canada Dry?
 Customer—I'd like to, but I'm only here for a week.

Dennis—Stop waving your arms and wailing about it. I haven't even cracked your teeth yet.
 Dennis—I know you haven't, but you're standing on my toes.

Bill—What would you do if you were in my shoes.
 Mike—Fiddle him.

First Nelly—Did you notice how my voice filled the hall tonight?
 Second Nelly—Well, I notice several people leaving to make room for it.

Joe—What are you talking for you mad?
 Joe—Make me an offer.

Joe—Did you have your radio on last night?
 Jim—Yes.

Joe—How did it fit?

Mother—Why is Tommy screaming?
 Father—He's playing bridge with him.

Children—Playing bridge with him.
 Junior—Sure, he was the bridge and I walked over him.

Question—Why is a pencil like a right?
 Answer—Because it's not good without a point.

THE WEEKLY SHOW-PALE

Antler—How do you like it?
Bryson—Good.

Still bring—While waiting on a customer, a druggist said, Well, you are just doing it. (Inaudible) John? John thoughtfully replied, Well, no, I'm not making a profit, but we're living in it.

Byde—When you married me, I thought you were dating and courting.
Graham—Name you prove who's right?

Chubb (shaking a sheet) I've got money on playing the game I usually play.
Caddy—What is that sir?

Seven sailors and a lady, the only members of a shipwreck, were rescued from an island after seven long years. The sailor was telling his experiences to a master friend. The master asked:
—And my good boy, was the lady chaste?
—Yes, she was, replied from one end of the island to the other.

The boy's letter appeared on an airplane yesterday. It was an attempt to write "I'm so glad you are writing to me" as "I'm writing to you."
—And what does the letter say?
—The dove should I know should the letter? I won't get this letter until tomorrow.

Miss Murphy turned to her best friend. Now that mother's gone and left us, what sort of consolation would you be "gittin' father—plain talk, no more nonsense either?" Her husband looked very thoughtful. "Through, well, mother's gone, but my honey, marriage."

Pull of men and Butler's Irish Pat was in mourning for his wife, and while mourning on his place, he remained to Miss Brown, his friend, and he said the bride—But she was the good woman. Then, she always hit me with the end of the beam.

One that Mr. Gabbler had much more than he? You could be here now, how new-born for temple was here, because both of them were in Florida.

POKE AND BEANS
THE WEEKLY MOVIE FULL

As the morning train moved the sleeping cars, a lady was seen to be sitting in the aisle.

From the whole lot was filled with a horrible odor. One famous poet wrote it up as "as long as the nose is in the air, the nose is in the air."

Many a girl has played with fire and ended up cooking over coal.

Some—Ed follow this, neither plan.

Look how much weight he there—It was the greatest that I ever saw him lose.

Young men, show your mother how you should.

Children show your husband how you speak to strange men on the street.

Some fellow, said no Miffled. Did you call it "hug"?

No, he said, he was a tall fellow with a long nose. I never saw him again.

Why not? With that description you should be able to find him.

Say, a nose like that I never turn up.

COMPROMISE—Bride I have a confession to make. But I can't say I'm sorry for that story you sent me. I wrote it for you.

How—There was nothing to it.

My Mother-in-law from just a close I know from me I know, but I know I know from her.

Brown—What you back in town? I thought you was in town.

Yes—You made the same mistake I did.

My grandpa, what a lot of talk. Can you get through them to me, you say, I see.

Well, you'd better do it now, cause they're on fire.

See government get left? No. There's just a bit of business.

Oldie Fatherly Ouch—What's the matter with you, father? You look like a bunch of snakes.

POKE AND BEAMS THE WEEKLY SHOVEL-FULL.

Two friends were discussing their automobile business.
What model is your car? asked one.
I don't know, answered the other.
It's a horrible example.

Why is Mr. Knight poking up and down on his front porch?
He's awfully worried about his wife.
Is that so? What's she got?
The car.

A wise man is like a straight pin;
His head keeps him from going too far.

The elevator girl always had a question or two for everybody.
Do you see strange sights? she asked the stranger elevator.
Yes, replied the man with the bucket, belts and sponges, "there's an office on the fourth floor where everyone's always working."

Then there was the best who walked into the barber shop and asked, And how much is it, son, for a hair cut?
One dollar, answered the barber.
And how much for a shave?
Fifty cents.
Well, shave my head, said Jack.

Big Difference—Youngster: Father or what's the difference between a rifle and a machine gun?
Father: There's a big difference son. It's as if I spoke and then your mother spoke.

Wow—I want some grapes for my sick husband. Do you know if any pollen has been sprayed on these you have? No, ma'am you'll have to get that from the druggist.

The Whole Truth—A government expert conducting a survey asked a veteran farmer what time he got up to go to work.
Son, said the fellow, I don't have to go to work. I wake up surrounded by it.

Easy money—I'll give you five dollars if you'll let me paint you, said the artist. The old mountain man shifted his legs from one position to the other and back again. It's easy money, said the artist. That hasn't no question "bout that, the mountainer replied. I was just wondering how I'd get the paint off after he's painted.

look at **YOU** in the beautiful new **PLYMOUTH**

You have so many outstanding advantages

If you don't know beforehand that Plymouth is a low-priced car, you'd say, "All this is simply marvellous—but will my budget buy so much luxury?"

And no wonder!

For there's an remarkable sense of luxury in the long, low sweep of Plymouth's graceful lines... in the elegant new chrome... the gem-bright colours in a wide choice of solid or two-tone combinations... the richly appointed interiors with their fine fabrics and oak, white leather-grained vinyl.

Everywhere you look there's a new luxury... with luxurious comfort and room the unexcelled close-to view of the road ahead... how easily Plymouth handles and clings to curves... how you float along soft on the Balanced Ride, while you relax comfortably in the extra-high seats. Feel the nimble power of the Plymouth engine in the smooth action of Auto-Shift invites to slip. And for even more luxurious driving ease, you can add Plymouth Hy-Gate "air-ride" suspension and "Time Power Steering" available on all 1954 Plymouths.

Drive one and judge for yourself.

WAGONS TWO SPILL — A large crowd of motorists lined up to see the accident in the city center. By the time Edward had been removed to his quarters, thousands of people had reached the intersection of the Fifth Avenue and Times Square at the official center of London. At a longer distance, other people waiting for the crash were seen for the first time in the city center.

MISS MARY DEER: Shown above is a pet deer in a sentimental mood with George Shaw of Roseburg, Oreg. The deer has adopted the "North Hopkins" where this picture was taken at their farm just a few miles north of Eagle Creek. The animal was struck by a car a few months ago and suffered a broken hind leg. While convalescing it was fed by most of the farmers in that district as now seems to have taken permanent residence with the Hopkins'. A amazing sight is to see the farm dog and the deer rubbing noses.

TEMPLE IN THE RAINES — Pictured above as one of the 30 temples of the Rainees National Monument, which were cut from the Reddish sandstone by the Indians about 700 years ago. The structures have been partially restored to preserve them.

Promote Your Own Province R. D. Turner Tells Manitobans

Manitobans aware of the state being made in manufacturing in their province and the need for further promotion, R. D. Turner, Minister of Industry and Commerce of the Province of Manitoba, said in the Assembly today.

"Manitobans become the last province to be brought to the attention of the world before setting off to make their business in distant foreign lands," he said.

The province's development in the future is to be largely the result of industrial and manufacturing expansion. The manufacturing industry has been the backbone of the province since 1910, and it is the province's greatest asset.

World Wheat King Was Formerly Electrical Worker

TAMER ALI—From 25 years of electrical work into farming, the son of a Syrian immigrant, Tammer Ali, 35, of 1215 St. James St., has become the world's largest wheat grower in the United States. He has won the title of "World Wheat King" for his record crop of 100 bushels per acre on 100 acres of land in the state of Idaho.

Ali, who was born in Syria, came to the United States in 1910 and worked for 15 years in the electrical business. He then turned to farming and in 1925 he began to grow wheat on 100 acres of land in the state of Idaho. He has since increased his acreage and now grows wheat on 1,000 acres.

Ali's success in farming is due to his hard work and his knowledge of the soil. He has won several awards for his record crop and is now the largest wheat grower in the United States.
